Here are the teachers comments:

- I would have spent more time in Leipzig and Wittenberg. But I know you have to make many choices when planning a workshop week. Some of the German students who were responsible for workshops knew their subject, but maybe they should have had their own teacher in the class who could have helped with organizing. Other teachers of course helped but at least I felt like doing something I maybe shouldn't have done.
- It was sad that the Italians were not there on Monday's opening ceremony.
- I would have liked to have more time during trips in cities.. :)
- Hostfamilies were absolutely great!!! and German teachers very helpful!!! Thanks a lot!! :)

Here are the students comments:

- It would be great to meet the same people again, because we all became friends.
- Amazing experience!
- Was an awesome week!! Thank you!
- In Leipzig we had only time for the sightseeing tour and no free time.
- It was my first exchange and I made really great experience. I would do exchanges more often because my English got much better and I've a great relationship between "my" exchange student and a few others.
- It was a very nice week with cool people and a lot of fun.
- It was really good experience! I would recommend this to everybody!
- Leaving the German students out from most of the actual workshops/trips/other programs during school days was a bad thing. We didn't really get to know any other Germans than our hosts during the week. If they are part of the project, they should be allowed to skip classes for it. Otherwise we had a really great week with you in Bitterfeld!
- My expectations from this project have been exceeded in many aspects.
- The trip was interesting and a great experience!
