

## **TEACHERS' FEEDBACK**

### CIVITAVECCHIA TRANSNATIONAL MEETING

The accommodation was very good and our hosts were very nice, I felt very pleased during the whole stay. With regard to the work, despite my English difficulties, I think that the time devoted to the organization of the mobility with the students was not enough and maybe quite a lot of details were left unsolved so they had to be solved later on. In my opinion, there wasn't time enough to work. (female)

I felt that the time was not enough for working, we needed more time in order to prepare the next activity with students. In addition, things weren't as good as it was expected, because the environment during the meetings was not as good as it should be. We achieved conclusions that were changed afterwards, for example, or there were misunderstandings because during the meetings there weren't clear settings or ideas at the end. For example, we didn't decide to bring posters to Finland during the meetings, but we found out that we had to when we were in the airport through whatsapp as a tool of communication... we should have had more time to work calmly and find together solutions which were clear, then sum up all of them and work on that. (female)

### CIVITAVECCHIA WORKSHOP

The most interesting issue was the contact with teachers and students in a vocational school, so different than ours in Cambre. The approach to the education system resulted totally new for us but also quite useful for our tasks. The workshops let us know a practical view of the Mediterranean economic reality in an industrial and commercial area as Civitavecchia. Not to mention the non-formal meetings with our partners. We presented, discussed and analyzed the education outlook in our countries. Besides, the possibility of visiting lovely places such as Rome helped to make the meeting valuable and also very pleasant. (female)

The trip was good, both the activities done by the students and the lectures given, above all the one Chiara gave, in which she told us how to develop a business and be your own boss starting from an initial idea. The visits were well organized except the one to S. Severo castle, because we didn't arrive with time enough to visit the medieval castle and so we couldn't get in. (male)
